Purchasing – Server Specs

Dual Core Atom
Atom 330 1.6Ghz 1MB Cache
250 GB 500 GB SATA II Hard Drive
1 GB 2 GB DDR2 SDRAM
Supermicro Rackmount Hardware
Gigabit Internal Network + VPN
50 GiB Backup Space
Remote Reboot Port
Availability: In Stock

2000GB Performance Outbound Bandwidth, Unmetered Inbound Bandwidth (1000 Mbit/sec port)
- $179.95 per month | $49.95 Free Setup
Featuring Flexible Bandwidth Billing
Buy Now!
Purchasing - Bandwidth

- **Monthly Data Transfer (Per GB)**
  - 2000GB of data transfer included at no additional charge
  - Additional bandwidth, if purchased in advance of the billing period, is $0.10 per GB
  - Overages are billed at $0.35 per GB
Purchasing - Bandwidth

- Unmetered (Capped)
  - Unmetered billing allows you to set a capped amount of outbound bandwidth on your account.
  - You will be able to use that amount of outgoing bandwidth 24/7 without any overage fees.
  - Will not be billed for inbound bandwidth usage as there is no cap on inbound bandwidth usage.
  - It also works well for those using higher amounts of bandwidth or those that do not want to risk overages.
95th Percentile

- Allows for burstability at per Mbit/sec pricing
- 95th percentile billing will take bandwidth readings every minute and at the end of the month the highest 5% of those readings, roughly 36 hours over a month, will be thrown out and you'll be billed for the next highest amount.
- The billing will cover both inbound and outbound bandwidth.
One of our goals at the RIAA is to provide timely and accurate information on the issues affecting the recording industry and the creative artists we represent that are of interest to the public and the media.
